## TTW Gooseneck

### Mounts Through the Surface

#### LED Gooseneck - spot

Designed to deliver superior white light output for true color and texture renditioning

- LED, 18" gooseneck fixture allows for maximum versatility in the positioning of light where desired
- 3 watt, 4100k, white light, LED
- Through the surface mount model has a 2" threaded post (requires a 1/2" hole) and mounting plate that is ideal for installing in extrusions, ceilings, soffits, walls, tabletops and podiums
- Available in silver
- Gooseneck fixture arm is tightly wound which assists fixture to hold virtually any position that it is set into
